LANGUAGES

- Tamil (Native)
- English (Fluent)

PROFILE

Adaptable software developer with a strong foundation in programming and a passion for learning new technologies. I excel in mastering diverse stacks to tackle projects effectively and deliver innovative solutions, leveraging my proactive approach to stay up-to-date with the latest developments in the field.

PROJECTS

SPOTIFY DOWNLOADER

- Developed a Spotify song downloader using Next.js for the frontend and Python for the backend, enabling users to conveniently download their favorite songs from Spotify through a user-friendly interface.
- Tech stack used : **Next.js, Python, Git-hub.**
- Live link : <https://spotifysongdownloader.vercel.app/>

JACKPOT ~ An E-Commerce website

- Developed a fully functional e-commerce website using React, Node.js, and Firebase. The website includes essential features such as product catalog management, secure user authentication, cart management, and a seamless checkout process.
- Tech stack used : **React.js, Node.js, Firebase, Git-hub.**
- Live link : <https://jackpotmenswear.vercel.app/>

PARKME ~ A smart parking finder app

- Developed a smart parking application, which will be very useful to people to make a stress less parking> Our app integrates Maps UPI.Which has a User Authentication, and user firebase for the backend
- Tech stack used : **Flutter, Firebase, Git-hub.**
- **Github repository** : <https://github.com/dhiyanesh-cyber/car-parking>

QUICK-NOTEZ ~ A Note taking web app

- Developed a note-taking web app using React.js to showcase my proficiency in the library. Employing React's virtual DOM ensures optimal performance, while the modular code structure enhances maintainability.
- Tech stack used : **React.js, HTML, CSS, Git-hub.**
- **Github repository** : <https://github.com/dhiyanesh-cyber/QuickNotez>
