📍 Dindigul, Tamilnadu, India

------------------------------------------------

## SKILLS

- HTML, CSS, JavaScript
- React JS, Next.js
- Node JS
- Java
- Git & Github
- Flutter
- Firebase

------------------------------------------------

## EDUCATION

**BE - Computer Science & Engineering**

**SSMIET - DINDIGUL**

2021 - 2025

Dindigul, Tamilnadu, India.

**SSLC, HSC**

**MSP SOLAI NADAR MEMORIAL HIGHER SECONDARY SCHOOL**

Dindigul, Tamilnadu, India

------------------------------------------------

## INTERNSHIP

**MERZOL TECHNOLOGIES**
**Aug 2023 | Remote**
- Flutter Development
- Project Management

**MAXELERATOR FOUNDATION**
**Jun 2023 | Madurai**
- Image processing using python
- CNN

------------------------------------------------

## LANGUAGES

- Tamil (Native)
- English (Fluent)

## SUMMARY

- Adaptable **React developer** with a strong programming foundation and passion for continuous learning.
- Proficient in leveraging **React.js** to build dynamic user interfaces.
- Skilled in component architecture, **state management** with hooks, and optimizing performance through virtual DOM.
- Adept in crafting **server-side** applications using **Express.js**, with expertise in robust routing and **API** design.
- Solid background in **Java programming**, enabling efficient problem-solving and application development.
- Equipped with a comprehensive skillset encompassing **HTML**, **CSS**, **JavaScript**, **Node.js**, **Git**, **GitHub**, **Flutter**, **and Firebase**.
- Dedicated to delivering innovative solutions by mastering diverse technology stacks and staying updated with the latest advancements in the field.

## PROJECTS

### JACKPOT ~ An E-Commerce website

- Developed a fully functional e-commerce website using React, Node.js, and Firebase. The website includes essential features such as product catalog management, secure user authentication, cart management, and a seamless checkout process.
- Tech stack used : **React.js, Node.js, Firebase, Git-hub**.
- Live link : https://jackpotmenswear.vercel.app/

### SPOTIFY DOWNLOADER

- Developed a Spotify song downloader using Next.js for the frontend and Python for the backend, enabling users to conveniently download their favorite songs from Spotify through a user-friendly interface.
- Tech stack used : **Next.js, Python, Git-hub**.
- Live link : https://spotifysongdownloader.vercel.app/

### PARKME ~ A smart parking finder app

- Developed a smart parking application, which will be very useful to people to make a stress less parking> Our app integrates Maps UPI.Which has a User Authentication, and user firebase for the backend
- Tech stack used : **Flutter, Firebase, Git-hub**.
- **Github repository** : https://github.com/dhiyanesh-cyber/car-parking

### QUICK-NOTEZ ~ A Note taking web app

- Developed a note-taking web app using React.js to showcase my proficiency in the library. Employing React's virtual DOM ensures optimal performance, while the modular code structure enhances maintainability.
- Tech stack used : **React.js, HTML, CSS, Git-hub**.
- **Github repository** : https://github.com/dhiyanesh-cyber/QuickNotez
